Now Available

TFE is proud to announce immediate access to a variety of sizes and types of black conveyor belting. We offer a full line of complementary products for your conveying needs, such as idlers, pulleys, Flexco Belt Conveying Products, shaft mount drive packages, and variable frequency drives.

Belts Prepared to Your Requirements

- Belt slitting for standard widths to 60"
- Lengths and widths cut to your specifications
- Critical tolerances met
- Install Flexco mechanical fasteners, punch & router, prep ends for field assembly

Exceeds Industry Standards

As with all products provided by TFE, our line of flat belt meets or exceeds industry standards. The heavy-duty polyester fabric carcass has excellent adhesion and heavy skins between plies.

Large Inventory

Our belt inventory is located at our Ardmore Ave. location near the airport in Fort Wayne to save you delivery time and shipping costs.
